#### 4. Ethics Disclosures

Ethics reporting by board members is done on a quarterly basis and is a standing item on the quarterly meeting agenda. The Chair requested Ms. Norberg query each board member.

There were no ethic disclosures reported.

#### 5. Expedited Licensing

The Chair invited Ms. Norberg to provide explain the proposed strategies to address long delays with current licensing processes.

##### A. Streamline the Temporary Permit process

Existing regulations impose added criteria to the minimum requirements identified in statute to grant temporary licensure. To implement an expedited temporary licensure process there is a need to amend the regulations to mirror the minimum criteria reflected in statute. This is accomplished with the following amendments to 12 AAC 40.035:

##### 12 AAC 40.035. TEMPORARY PERMIT APPLICATION REQUIREMENTS.

(d) A member of the board, the executive secretary, or a person designated by the board to issue temporary permits, may expedite the issuance of a temporary physician permit to an applicant who

(1) meets the requirements of AS 08.64.270; and

(2) has on file with the division

(A) a completed application on a form provided by the department, ~~including a photograph of the applicant;~~

(B) a completed authorization for release of records on a form provided by the department and signed by the applicant;

(C) payment of all required application and licensing fees;

~~(D) a complete profile and credentials verification documents sent directly to the division from the Federation Credentials Verification Service of the Federation of State Medical Boards of the United States, Inc.;~~

~~(E) verification of passing the licensing examination required under 12 AAC 40.010(c)(1) or 12 AAC 40.020;~~

~~(F) clearance from the federal Drug Enforcement Administration (DEA);~~

**On a motion duly made by Dr. Heilala and seconded by Ms. Bigelow Hood, the Board approved by roll call vote to accept the changes to 12 AAC 40.035 as presented above for the purpose of expediting the temporary licensure process for physicians.**

Roll Call: Yeas, Ms. Bigelow Hood, Dr. Freeman, Dr. Heilala, Dr. Parker, Dr. Wein, Mr. Wilson.

Absent for Vote: Ms. Mielke

##### B. Streamline the Full Licensure process

Four strategies were identified aimed at addressing redundant and outdated credentialing requirements in regulation:

1. Revise regulations under 12 AAC 40.010 to eliminate the requirement for a “certified copy the applicant’s medical school diploma.” This requirement is redundant because direct source verification of medical school education is also required and accomplishes the same purpose. Requiring a copy of the diploma is not necessary to validate medical school education.
2. Revise regulations under 12 AAC 40.010 to eliminate the requirement to verify a specific number and category of opioid education CMEs. These requirements are more stringent than statute and are required at renewal, so should not need to be done at the time of application.

These changes are accomplished with the following amendments to 12 AAC 40.010:

12 AAC 40.010. APPLICATION FOR LICENSE BY CREDENTIALS.

(b) A complete application must include the following items

(1) submitted by the applicant:

(A) a completed application on a form provided by the department, including a photograph of the applicant;

(B) a completed authorization for release of records on a form provided by the department and signed by the applicant;

(C) repealed 4/2/2004;

(D) a statement listing each hospital at which the applicant has held privileges within the five years immediately before the date that the applicant signs the application form;

(E) all required application and licensing fees;

~~(F) a certified true copy of the applicant’s medical, osteopathy, or podiatry school diploma or certificate;~~

(G) if applicable, verification of the applicant’s post-graduate training that meets the requirements of (h) of this section;

(H) ~~verification attestation~~ of the applicant’s completion ~~of at least two hours~~ of education in pain management and opioid use and addiction ~~earned in a Category I continuing medical education program accredited by the American Medical Association, or a Category I or II continuing medical education program accredited by the American Osteopathic Association, or a continuing medical education program from a provider that is approved by the Council on Podiatric Medical Education.~~ For an applicant who does not currently hold a valid federal Drug Enforcement Administration registration number, verification will be waived until the applicant applies for a valid registration number;

3. Revise the Application Checklist for Physicians to match the changes identified in Attachment I.

4. Revise the requirement for original letters of verification of hospital privileges from each of the hospitals listed

Possible alternatives were presented to the Board for how to address this particular requirement that can generate significant delays to application processing while also adding significant workload for staff as the Board sees a trend of more applicants applying to provide telemedicine. One solution involved adding an attestation to the existing language on the application signature page as presented.

### C. Eliminate Emergency Courtesy License Type

The Board considered the following information provided by the Executive Administrator in their determination of whether to continue granting this license type:

The ECL was implemented by the Board in November 2020 in response to the increased demand for out-of-state providers to assist with the COVID crises. The ECL is an extremely abbreviated process. It does not require the verification of education, post-graduate training, verification of licensure in all states in which licenses are held or verification of hospital privileges.

Instead of being used for what it was initially intended, many practitioners are utilizing the ECL to expedite licensing for reasons no longer tied to addressing COVID - often times, in lieu of the locum tenens application (which requires more background information). In many cases licensees are also using the ECL as a transitional tool until they choose to initiate full licensure (after applying for a six-month extension). Processing multiple license types for the same applicant creates more work for staff.

On a motion duly made by Dr. Heilala and seconded by Ms. Bigelow Hood, the board approved by roll call vote to withdraw the declaration of the urgent situation status declared by the Board in November 2020 for the purpose of creating the Emergency Courtesy Licenses

1 as outlined in 12 AAC 40.056(J) and eliminate the issuance of ECLs effective July 1, 2022.

## **11. Division Update**

The Chair invited Director Chambers to address the Board regarding the following topics:

- **Quarterly Budget Update**

Due to General Funds allocated in the State Budget for the Division of Corporations, Business and Professional Licensing, the Medical Board will not have to raise its licensing fees for the 2022 renewal cycle. Overall, the Boards' expenditures remain less than previous years, likely the result of vacancies and less travel, resulting in a higher revenue balance as compared to previous years.

- **Legislative session wrap -up**

Two bills (HB 265 and HB 392) passed the legislature during this session that will have implications and require potential regulations changes by the Board once signed into law. HB 265 relates to telehealth with one of its most significant provisions allowing for a physician under a narrow set of criteria to practice in Alaska without a license. HB 392 will allow for APRN's and PA's the ability to sign off on End of Life documents.
